

Revolutionize Your Supply Chain with RFID

From manufacturer to last-mile delivery, we integrate RFID into every layer of your operations to drive automation, precision, and strategic advantage.

TECH CAPABILITIES DRIVING BUSINESS BENEFITS

Enhanced Accuracy : Real-time inventory updates; no counting errors; better stock accuracy.

Data-Driven Decisions: Instant insights to optimize stock, promotions, and sales.

Operational Excellence
Faster receiving, less manual work, smoother retail execution.

Reduced Order Mark-Out
Minimized stockouts and missed order fulfillment.

SAP EWM Integration
Real-time sync with SAP EWM for seamless operations.

Automated Posting
RFID tunnels auto-post GRN in SAP, no manual input.

KEY DIFFERENTIATORS

Industry Expertise: Deep understanding of fashion retail challenges and trends.

Supply Chain Integration: End-to-end RFID for total supply chain efficiency.

Customization: Tailored RFID solutions addressing specific operational needs.

Vendor-Neutral Approach: Objective vendor selection for optimal solutions.

Scalable & Future-Ready: Built to grow with your business and tech advances.

Proven Track Record: Successful RFID pilot programs and implementations.

PARAMETERS FOR RFID DESIGN CONSULTING

Quantitative Factors

- ▶ Data and Reporting Capabilities
- ▶ Sales and Customer Experience
- ▶ Operational Efficiency Metrics
- ▶ Stock replenishment times
- ▶ Inventory accuracy and efficiency
- ▶ Cost benefit analysis

Qualitative Factors

- ▶ Alignment with Business Strategy
- ▶ Data Privacy & Security
- ▶ Implementation Complexity
- ▶ User Experience
- ▶ Vendor Expertise & Support services
- ▶ Flexibility for Future Needs

STELLIUM'S IMPACT ON YOUR BUSINESS

End-to-End Traceability:
Complete visibility of product movement.

Reduced Shrinkage & Loss: Real-time tracking prevents theft.

MRP, Batch & Quantity Accuracy: Control over sensitive product data.

Vendor Accountability: Quality and accuracy from the source.

Let **Stellium** be your trusted automation partner.
