SAP TM Implementation for DHL

Overview

DHL is a global leader and India's most competent and largest logistics service provider that has successfully been able to provide simple, fast, reliable and 24x7 road logistics services across India through an innovative and agile approach.

Solution improvements & add-ons

Petty cash
management

Fast-tag
integration

2 step optimized
planning

Invoicing for different
customer types from
a single source

Fuel desk
automation

Solution highlights

- Contract Pricing, Creation & Maintenance using SAP TM
- Trip Planning & Scheduling with automatic truck assignment
- Driver Rostering through customized logic to reduce Driver to Truck ratio and improve Driver Utilization
- Trip monitoring & Execution by integrating TM/EM with T4U (IoT) and FarEye (Customer App, Operations App & Driver App) for reporting or updating planned/unplanned events and live trip tracking
- Settlement & Invoice generation using SAP FICO module taking GST into consideration
- Fleet management using SAP PM for Asset management and to create Fleet Maintenance Notifications & Orders

Value delivered

Improved SLA through Trip Prioritization and Optimization

of orders per day

Improved Asset Utilization through efficient planning and reduced Driver to Truck Ratio

Smarthub eases driver assignment and expense management

Reduced dry-run of trucks globally minimizing transportation costs
